

## **AMI Days**

The Charleston School District was approved, by the Arkansas department of Education, for 5 AMI (Alternate Methods of Instruction) should the district miss school days due to unforeseen circumstances. This was increased to 10 AMI days per the Director's Memo LS-20-089.

### **What is an AMI Day?**

AMI days are intended to extend learning days should students have to miss a day of school. The Charleston School District has been approved for 5 days. (Update - The District has been approved for 10 days per the Director's Memo LS-20-089)

### **How does it work?**

Should the Charleston School District have to be closed during a normal school day, the Superintendent may declare an AMI day. If an AMI day is declared, information will be posted on the district's website, social media, and an automated phone call.

### **What is expected of my student during an AMI day?**

Students will receive classroom assignments from their teacher, by the way of packets, google classroom or email, depending on age appropriateness. Students will need to have their work turned in within 5 days of returning to school. Students will not be counted absent unless they fail to return their assigned work.
