Attendance Information: Charleston School District recognizes the **importance of regular school attendance** as a necessity for a successful education. Studies show many children who miss too many days of school can struggle academically in later years. When students are absent for an average of just two days of school per month – even when the absences are excused– it can have a negative impact. Encouraging regular school attendance is one of the most powerful ways you can prepare your child for success – both in school and in life. When you make school attendance a priority, you help your child get better grades, develop healthy life habits, avoid dangerous behavior and have a better chance of graduating from high school.

Communicate with the school if your child is absent or tardy. Call the Elementary Office at 479-965-2460 or communicate with your child's teacher to report an absence or a tardy.
